

Research Scavenger Hunt

engl 131 / sec. A4 / winter quarter 2005-06 / chang

Now that you have been introduced to various research sites, tools, and databases online, it is time to put that knowledge to the test. In small groups, up to 3, go through the following list of items, questions, and blanks. Then using the research resources and methods you have learned, try to locate and complete as many of the following as you can. Some items will be relatively straightforward. Others may take a little digging or problem-solving. You have 30 minutes to complete as much of the scavenger hunt as you can. Be prepared to discuss your process, your questions, any realizations, and what constitutes appropriate academic research material.
